BEACH & TIDES
Enjoy the beach and the ocean

Coral reefs protect the east coast of Zanzibar and create a long lagoon with 50 shades of turquoise water. The white-sand beaches are broad and flat. The moon's pull creates tidal differences of up to 4 metres twice a day which makes for constantly changing ocean views. High tide is ideal for swimming, while at low tide the shallow waters beg to be explored! The extended Jetty allows you to enjoy the ocean, even at low tide. [View tide times for Zanzibar.](#)
