ABOUT US

Beach & Safari Holidays is an expert in safaris in Tanzania and a specialist in holidays in Zanzibar, owned by the Dutchman Bert Schoonvelde. Years ago, he came to Zanzibar for a holiday and fell in love with this magnificent place.

“Now, I am lucky enough to have four Beach Resorts and a Boutique Hotel on Zanzibar, a Safari Lodge in the Selous Game Reserve/Nyerere National Park and several more Safari Lodges located near or in the world’s most famous national parks: Serengeti Ikoma, Serengeti Klein’s gate Ololosokwan, Lake Natron, Lake Manyara and Arusha.” This combination of culture, incredible white sand beaches and the largest wildlife sanctuaries in Africa make Tanzania a unique destination.

Knowing this, they decided to make their dream their life and started their business adventure. It is, therefore, the *mission* of the organization to enable as many people as possible to experience the beauty of Africa. It's the organization's *vision* to contribute to creating job opportunities for the local inhabitants of Tanzania.

Bert Schoonvelde:
“My holidays in Tanzania were too short to get to know this magical country, so I stayed here and made my dream my job!”

WHY BOOK WITH US?

See below just a handful of examples from our previous guests who absolutely loved their experience with us!

"Fantastic experience and, a great organization. Highly recommend!" ★★★★★

We spent 15 amazing days in Tanzania. We started with Safari (Arusha, Tarangire, Manyara, Serengeti, Ngorongoro), followed by a Stone Town visit, and then relaxing in a beach resort in Zanzibar. The trip was perfectly organized. While preparing for the trip we had several questions, and always received great support and responsiveness from Anouk. Our experience is that this is a professional and reliable company. Everything is arranged down to the last detail. All lodges, tents, and hotel rooms were spacious, very clean, and fully equipped. The jeep was comfortable. The food is delicious. The staff everywhere are extremely friendly. Everybody made us feel "at home". Our safari guide, Fred, did his utmost to provide us with a great experience and share lots of interesting information during game drives. This was a fantastic holiday, with beautiful experiences and special memories. We can recommend Beach & Safari Holidays without any hesitation.

"Great balance of beach and wildlife" ★★★★★

Did a two-week tour which comprised a couple of days on the beach in Zanzibar, a week in game lodges, and five days back on the beach in Zanzibar. I thought the service was great, the staff were all friendly, the food was very nice and all of the hotels we stayed at on the tour were of a high standard. I thought the value for money was excellent.

"Unforgettable experience" ★★★★★

Do you want to experience animals in the wild? Do you want a very good price/performance ratio? Then Beach & Safari Holidays is the right place for you. We were very well looked after from the first to the last minute. If we had any questions, they were quick to help and we enjoyed our stay in Tanzania and Zanzibar very much. We will be back!

"Incredible trip through Tanzania with great guides and breathtaking accommodations" ★★★★★

This trip was by far the best in my whole life. It was way better than I expected. Our guide Muktar and our driver Alfonso were both incredibly considerate and friendly. Muktar spoke German fluently and had a great knowledge of nature and wildlife. Alfonso's English was perfect and I felt very safe with him as a driver, even when the roads were not in a good condition. They both made sure that we were safe at all times and did their best to get us as close as possible to the animals in the parks. The accommodations during the trip were very homey with mostly good locations and amazing views as well. I would definitely recommend to book this trip.

We Have Our Own Foundation

GOOD TO KNOW (FAQS)

IS TANZANIA SAFE? YES!

While Tanzania and Zanzibar are considered safe, it is always a good idea to take out travel insurance that covers medical emergencies, trip cancellations, and personal belongings. This will provide you with peace of mind during your travels.

By being mindful and taking basic safety precautions, you can enjoy your time in Tanzania and have a memorable and safe experience exploring the country's stunning landscapes, rich wildlife, and vibrant culture.

VISA

To enter Tanzania or Zanzibar, most travellers will require a visa. The specific visa requirements can vary depending on your nationality and the purpose of your visit.

Visit this website for more information and up-to-date regulations and guidelines on the visa application process: <https://immigration.go.tz/index.php/immigration-services/visa-information>.

AIRPORT PICK-UP: WE WAIT FOR YOU!

Arriving at a new destination can be both exciting and overwhelming, but when you book with us, you can rest assured that we'll be there to welcome you right from the moment you land. Our dedicated team will be waiting for you at the airport, ready to provide a warm and hassle-free start to your journey.

BINOCULARS AND SAFARI BOOKLETS: ENHANCING YOUR SAFARI EXPERIENCE

Embarking on a safari adventure is an incredible opportunity to witness the wonders of wildlife in their natural habitat. To ensure you don't miss a single moment, we provide complimentary binoculars for your use during the jeep safari.

With our high-quality binoculars, you can get up close and personal with the magnificent animals that roam the savannah. From spotting a lion resting under a tree to observing a herd of elephants in the distance, these binoculars will bring the wildlife right to your eyes, enhancing your safari experience and allowing you to capture every detail.

In addition to the binoculars, we also provide booklets about the animals and birds you may encounter during your safari. They serve as handy references, allowing you to identify the incredible wildlife you encounter on your journey.

Our goal is to enrich your safari adventure by providing you with the tools to fully appreciate the biodiversity and natural wonders around you. So grab the binoculars, flip through the info booklets, and get ready for an immersive wildlife experience like no other.

TRAVEL INSURANCE

Travel insurance is an essential aspect of any trip, including when visiting Tanzania. It provides financial protection and peace of mind in case of unexpected events or emergencies during your travels. A comprehensive travel insurance policy typically covers a range of situations, such as trip cancellation or interruption, medical expenses, emergency medical evacuation, lost or delayed baggage, and personal liability. It is important to carefully review the coverage details of the policy you choose to ensure it meets your specific needs.

When travelling to Tanzania, it is recommended to have travel insurance that includes medical coverage. This will ensure that you are protected in case of illness or injury while in the country.

On request, we can arrange an AMREF flying doctors insurance for you.

WHAT IS THE BEST SEASON TO TRAVEL TO TANZANIA AND ZANZIBAR?

The best season to travel to Tanzania and Zanzibar

depends on your preferences and the experiences you seek. Tanzania and Zanzibar offer something unique and special throughout the year, making them great destinations to visit at any time.

If you are looking to witness the Great Wildlife Migration, where millions of wildebeest and zebras move across the Serengeti plains, then the green season is ideal. This is typically from March to May and November to December. During this time, the landscape is vibrant and lush, and wildlife sightings are abundant.

If you prefer dryer weather and want to enjoy the beaches of Zanzibar, the dry season from June to October is a popular choice. This period offers sunny days, warm temperatures, and calm seas, perfect for relaxing and indulging in water activities.

However, it's important to note that even during the green season, Tanzania and Zanzibar have plenty to offer. The rain showers are usually short-lived, and the landscape becomes beautifully green. It's an opportunity to witness nature's transformation and enjoy the unique experiences it brings.

Ultimately, the best season to travel to Tanzania and Zanzibar depends on your interests and preferences. Whether you choose the dry season or the green season, you will be treated to incredible wildlife encounters, stunning landscapes, and warm hospitality that make Tanzania and Zanzibar a year-round destination worth exploring.

VACCINATIONS

The CDC and WHO advise vaccines against Hepatitis A, Hepatitis B, and typhoid for Tanzania and Zanzibar in addition to routine vaccinations like MMR and TDP.

Depending on the travellers activities, immunizations against rabies and yellow fever are also advised.

It is required to have proof of yellow fever vaccination for travellers arriving from Yellow fever-endemic countries. This condition also applies to travellers subjected to long flight connections (transit) in Yellow fever-endemic countries for twelve hours (12hrs) or more.

As of January 2023, Tanzania is no longer subject to COVID-19 limitations, and vaccines or PCR tests are no longer required prior to travel.

As with all international travel, we always suggest that you seek medical advice from your doctor before visiting Tanzania.

IS TIPPING REQUIRED?

While tipping is a common practice in Tanzania, our tour prices are not dependent on gratuities. It's entirely at your discretion to tip our dedicated driver guides for their exceptional service. Rest assured that our team is compensated fairly, ensuring that your experience remains exceptional, whether or not you choose to tip.

NATIONAL PARKS AND GAME RESERVES

SERENGETI NATIONAL PARK

ENDLESS PLAINS AND STUNNING SAVANNAH

With vast open plains and an abundance of wildlife as far as the eye can see, the Serengeti is a safari maker's dreamland. As the park is so expansive, it is ideally recommended to spend several days exploring. Serengeti National Park spans across 14,763 square kilometres and is easily the largest and arguably most popular of the northern circuit National Parks. The Serengeti is host to the annual Wildebeest migration, when some six million hooves pound the open plains, as more than 200,000 zebra and 300,000 Thomson's gazelle join the wildebeest's trek for fresh grazing. Buffalo, elephant, giraffe, lion, hippo and hyena are also frequently sighted throughout the Serengeti.

SERENGETI NORTH & MARA RIVER SERENGETI NATIONAL PARK

Witness the most amazing wildlife spectacle in Africa at the Mara River. The Mara River is most famous for the legendary wildebeest crossing, a dramatic event, which is featured in countless wildlife documentaries. One of Tanzania's best-kept secrets is the fact that nearly half of the Mara River is situated in the northern Serengeti versus the Masai Mara's segment in Kenya. While there are hordes of vehicles just a few miles upriver in the Masai Mara, the Serengeti side is virtually devoid of tourists. Not only the Mara River is an essential part of this area of the Serengeti, but it is also a lush and idyllic spot hidden away in the remote reaches of the north. Many varieties of colourful birds can be found here including kingfishers, hoopoes and rollers. The flourishing resources support some unusual antelope species including Mountain reedbuck and Steenbok. The nearby Larelemangi salt lick is a haven for wildlife and large herds of buffalo and elephant are regular visitors.

SERENGETI CENTRAL/ SERONERA AREA

SERENGETI NATIONAL PARK

Big Cat Capital

Serengeti's Seronera area is located in the south-central region of the park and is well known for being the habitat of a large number of big cats; the lion, leopard and cheetah are often spotted here. However, the elephant, giraffe, hippo, crocodile, buffalo and impala are also well-known visitors. The area is very popular as it is one of the most likely spots to watch a kill. The landscape is dotted with "kopjes", rocky granite or Gneiss outcrops, over 550 million years old and in high favour by some of the cats as look-out points while hunting.

IKONA WILDLIFE MANAGEMENT AREA (WMA)

SERENGETI ECOSYSTEM

Path of the Wildebeest

Ikona Wildlife Management Area (WMA), nestled between the Serengeti National Park and the Grumeti and Ikorongo Game Reserves, is located directly across the road from our Africa Safari Serengeti Ikoma accommodation. Ikona WMA was established in 2003 to spread economic benefit derived from tourism to the 5 villages that form part of this community, and to create a buffer zone for the protection of the national park. This area supports a variety of wildlife across 242 square kilometres of pristine wilderness including herds of elephant, waterbuck, Black and White colobus monkeys, shy leopard and both the Greater and the Lesser Kudu. A little-known, but very impressive fact is that this is the assembly point of the wildebeest during their annual migration when the vast herds move in the direction of the northern Serengeti for the famous river crossings. Spectacular night game drives are offered in this well-kept secret area.

NGORONGORO CRATER

THE WORLD'S LARGEST, INACTIVE, INTACT AND UNFILLED CRATER

The Ngorongoro Crater is a World Heritage Site, the largest intact volcanic caldera in the world and is known as the eighth wonder of the world. Due to the natural rims of the crater, there is an abundance of wildlife throughout the conservation area that is home to the Big Five, including the African black rhino, as well as hyenas, zebras and elephants, to name a few.

Without a doubt, the crater is a must-see on any northern circuit itinerary.

Lake Natron is the main breeding site for 2.5 million Lesser Flamingos. Known as the land of flamingos, Lake Natron should be on every adventurer's itinerary. It is an alkaline lake, 58 km long and barely 50 cm deep, shimmering in the middle of the Kenyan border, northeast of the Ngorongoro Conservation Area.

The drives to reach the lake from Mto wa Mbu or the northern Serengeti are remote, with a desolate, otherworldly beauty and an incomparable sense of space and antiquity. Roads traverse untravelled Maasai lands, with small bomas and large mountains often in sight in a wild and captive landscape.

From June to November, around two million flamingos gather on the lake itself: it is one of the most stirring wildlife spectacles in East Africa. And near the southern end of the lake, the views of the Ol Doiyo Lengai volcano are splendid.

LAKE MANYARA NATIONAL PARK TREE-CLIMBING LIONS AND OVER 400 SPECIES OF BIRDS

Large ecological in a small area

Large ecological variety in a small area
Lake Manyara National Park, an underestimated gem of the safari parks, offers a large ecological variety in a small area. The alkaline soda of the lake appeals to an impressive number of birds who thrive on its water. More than 400 species have been identified and one of the highlights are the thousands of strolling flamingoes. From the entrance of the park, the road winds through a groundwater forest area where baboon troops can be seen hanging about on the roadside and in the trees. On the grassy banks of the lake, the wildebeest, giraffe, zebra and the large buffalo can be seen grazing the day away. The mahogany and acacia trees are inhabited by the famous tree-climbing lions, if you're lucky you might spot them lazing on a tree branch. At Africa Safari, we have an ideal accommodation in Lake Manyara for all those people who want to visit the national park.

JANGWANI CORRIDOR

Be amazed by the beauty of the Jangwani Corridor

Jangwani Corridor is located just between Lake Manyara National Park and the natural wall of the rift valley. It is an area for cattle grazing and a way for wildlife to migrate to the north undisturbed. This corridor extends from the northeast corner of Lake Manyara NP southeast for 10 km to Eslalei Village and continuing for 20km to Manyara Ranch. The width of the corridor ranges from 3.5 to 6 km. Most of Lake Manyara's wildlife can be found here as well. The special thing about Jangwani corridor is the fact that it allows for night game drives. A night game drive is a unique experience, quite different from day game driving. Visibility is restricted to the reach of the jeep spotlights making for an exciting adventure of 'spot the wildlife'. Animals are also far more active at night than they are in the daylight so there is ample opportunity to witness a hunt. Wildlife aside, the sounds of nature in the evening cruising under a starlit sky make a night drive in Jangwani well worth the itinerary addition.

LAKE NATRON

TARANGIRE NATIONAL PARK HOME OF THE ELEPHANTS

The highest concentration of wildlife outside the Serengeti

Tarangire National Park is a fun and easy park to explore. Wildlife is abundant and exposed due to the park's more compact and open terrain making it easier to see wildlife both up close and from a distance. The park is only a short 2 hours drive from Arusha and in close proximity to Lake Manyara. It is 2850 square kilometres making it the sixth-largest park in Tanzania and offering the highest concentration of wildlife outside the Serengeti.

Tarangire is known for its large herds of elephants, which can be viewed at close range. Other animals likely to be seen throughout Tarangire are; wildebeest, zebra, buffalo, gazelle, warthog, impala, python, lion, leopard and over 50 species of birds.

ARUSHA NATIONAL PARK HOME OF MOUNT MERU

The place to find Mount Meru, alkaline lakes and a highlight for birders Arusha National Park is one of the smaller national parks in the northern circuit and located at the foot of Mount Meru in Arusha. This beautiful park is mostly known for the rare black and white Colobus monkey that is often seen here. An amazingly gracious animal to see swirling between the trees with its long arms and long black and white fur.

The park consists of mountain areas combined with rainforests and lakes. It is a paradise for bird watchers since you can find many tropical species here that are rarely seen anywhere else. Examples are the Greater flamingo and the Silvery-cheeked hornbill. During game drives, you might see less wildlife due to the forest, but still, the park is definitely worth a visit. Tired of sitting in the car? Canoe safaris and walking safaris are possible here!

NYERERE NATIONAL PARK

A hidden wonder, Nyerere National Park

Nyerere National Park is a little more of a hidden wonder in Tanzania, giving it even greater appeal. It's one of the largest remaining wilderness areas in Africa, relatively undisturbed by human impact with only a small 8% of the northern region of the park dedicated to photographic tourism. The reserve is crossed by the second biggest river in Tanzania, the Rufiji river, creating a very dynamic ecosystem. Selous is home to more than 2000 species of plants and over 350 species of birds and reptiles, boasting a wide range of wildlife from the African bush elephants, hippopotamus and lions to Cape buffaloes, Maasai giraffe, & zebra.

The vehicle is a low emission, open four-wheel drive safari jeep, perfectly suited for getting up close and personal with nature and taking unobstructed pictures.

POLOLETI GAME RESERVE

An important area for breeding wildebeest, with an abundance of wildlife

The new Pololeti Game Reserve, is part of the Loliondo Game Controlled Area, now operating under the NCAA (Ngorongoro Conservation Area Authority), an important area for breeding wildebeest, and a corridor for the animals coming from the Serengeti NP.

Because wildlife knows no boundaries, you will find a wide variety of animals in the game reserve, such as hunting lions, roaming elephants, grazing buffalo, running antelope and more.

SAADANI NATIONAL PARK

Where the Bush Meets the Ocean

Unveil the untamed beauty of Saadani National Park, where the bush harmoniously blends with the Indian Ocean. Located on the northern coast of Tanzania, this unique national park offers an exceptional safari adventure against the backdrop of pristine beaches and turquoise waters. With a view of the azure waves, you can witness elephants and other wildlife in their natural habitat. Discover diverse ecosystems, pristine beaches, and unforgettable safaris in Saadani National Park – an extraordinary fusion of wildlife and coastal wonder.

MIKUMI NATIONAL PARK

The Wild Heart of Tanzania

Mikumi National Park is where the untamed spirit of Africa comes to life. Located in the heart of Tanzania, this remarkable wilderness promises an authentic safari experience. Its sprawling landscapes, adorned with acacia-dotted plains, serve as a canvas for the vibrant tapestry of African wildlife. As you embark on your journey, the rich biodiversity and breathtaking panoramas will captivate your senses. Mikumi National Park is a place where the wild heart of Tanzania beats strongly, leaving you with cherished memories of an extraordinary safari adventure.

SAFARI NORTHERN CIRCUIT

Welcome to Tanzania's Northern Circuit, a haven for safari enthusiasts! Here, you'll discover renowned national parks and game reserves, including the famed Serengeti. Witness the awe-inspiring Great Migration, a natural spectacle like no other, as millions of wildebeest and zebras traverse the plains in search of greener pastures. Our accommodations are strategically located, offering unparalleled access to these natural wonders. Whether you're in the Serengeti, Ngorongoro Crater, or Tarangire, expect the same exceptional service and quality throughout your journey. Experience the best of Tanzania's wildlife and landscapes with us!

Witness the awe-inspiring Great Migration during your stay in our accommodations. Every year, approximately 1.5 million zebras and wildebeest embark on a remarkable journey across the Serengeti ecosystem in Tanzania.

From December to March, the southern Serengeti comes alive with the calving season, as newborn animals take their first steps in the world. It's a breathtaking sight to behold.

As the seasons change, the herds make their way to the western Serengeti from April to June, marking the start of their epic migration. This is the perfect opportunity to witness the sheer numbers and powerful movements of these animals.

From July to October, the northern Serengeti becomes the stage for one of nature's most dramatic events – the crossing of the Mara River. It's a thrilling spectacle as the herds navigate through the treacherous waters, facing the lurking crocodiles.

By November, the migration starts its journey back to the eastern Serengeti, completing the incredible cycle. Along the way, you'll have numerous opportunities to witness this extraordinary wildlife phenomenon.

No matter which of our accommodations you choose, you can rest assured that you'll have ample chances to witness the Great Migration firsthand. It's an experience that will leave you in awe of nature's wonders and create lasting memories.

However, there is much more to explore and discover in the Serengeti than just the Great Migration. This vast and diverse ecosystem is renowned for its exceptional game drives, offering you the opportunity to encounter the iconic Big 5.

The Big 5 refers to Africa's most impressive wildlife species: the lion, leopard, elephant, rhinoceros, and buffalo. These magnificent animals are the epitome of African wildlife and spotting each of them is a thrilling experience. The Serengeti's open plains and varied landscapes provide an ideal habitat for these majestic creatures.

ACCOMMODATIONS IN THE NORTHERN CIRCUIT
